

LET MEXICO ALONE!

SOCIALIST PARTY NATIONAL EXECUTIVE COMMITTEE
TELLS PRES. WILSON VIEWS OF ONE MILLION VOTERS

Voice the opposition of the one million Socialist voters of the nation to armed intervention in Mexico, the Socialist Party National Executive Committee adopted and forwarded to President Wilson a memorial on the question of his recent mandate on the Mexican situation. The Memorial was in full as follows:

MEMORIAL
TO THE HONORABLE
WOODROW WILSON,
PRESIDENT OF THE
UNITED STATES.

WE, THE members of the Executive Committee of the Socialist Party

of the United States, in regular meeting assembled, and speaking for more than one million voters, view with grave alarm the implied threat contained in your recent warning to the contending elements among the liberty seeking people of war-torn Mexico.

The Socialist Party is unalterably opposed to armed intervention, and if that is the hidden meaning of your changed attitude on the Mexican situation, then we do hereby solemnly protest against your mandate, issued from the White House on June 2, 1915, in which you declare that:

"It is time, therefore, that the government of the United States should frankly state the policy which in these extraordinary circumstances it becomes its duty to adopt. It must presently do what it has not hitherto done or felt at liberty to do, lend its active moral support to some man or group of men, if such may be found, who can rally the suffering people of Mexico to their support in an effort to ignore, if they cannot unite, the warring factions of the country, return to the constitution of the republic so long in abeyance, and set up a government at Mexico City which the great powers of the world can recognize and deal with a government which

whom the program of the revolution will be a business and not merely a platform." We have, since the evacuation of Vera Cruz, Mexico, felt with deep satisfaction that your administration of the affairs of government at Washington intended to honestly assist, in every way possible, without resort to arms, the enslaved people of Mexico in achieving their liberty. We feel now, more than ever, that the United States will best serve the interests of the Mexican people by not meddling or interfering in the present crisis.

You say, "Mexico is starving." The United States is starving."

Virginia, Michigan, Colorado and elsewhere, meant the crushing of the hopes rather than interfering with the internal of our own citizens for better working conditions, increased wages and an ever widening industrial liberty. This course we earnestly protest and will oppose with all the power at our command, no matter upon what pretext such action may be based.

Respectfully submitted,
NATIONAL EXECUTIVE COMMITTEE,
SOCIALIST PARTY. — James H. Maurer, Adolph Germer, George H. Goebel.

We say, of the liberty loving Mexican people: just Maurer, Adolph Germer, George H. Goebel, Arthur LeSueur and Emil Seidel.

POINT WAY TO END THE COLORADO HORRORS

Two immediate steps to help remedy conditions in Colorado are outlined to President Wilson in a memorial adopted by the Socialist Party National Executive Committee which will be forwarded to him immediately. It urges that the corrupt officials of Colorado be dealt with in the same manner that those at Terre Haute, Indiana, were treated, and that indictments be found against those who have been hit by the evidence produced before the Federal Commission on Industrial Relations. The memorial in full is as follows:

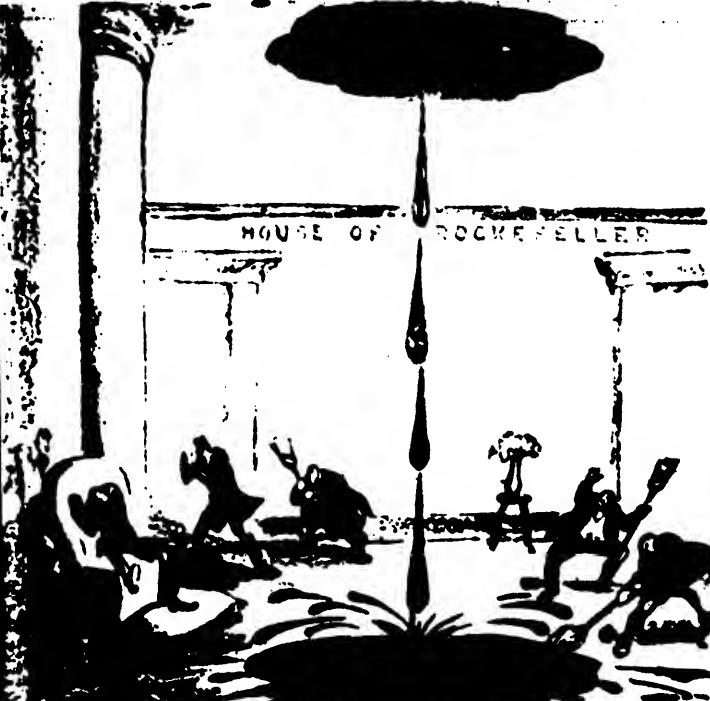

TO HIS EXCELLENCY WOODROW WILSON,
PRESIDENT OF THE UNITED STATES.

THE undersigned National Executive Committee of the Socialist Party in regular session assembled, respectfully represents that it has closely followed the occurrences in the State of Colorado during the last two years; that it has watched the developments in the coal miners' strike with the attending ruthless

murder, the trials of John R. Lawson and Louisa Zan- canelli; and lastly that it has very carefully followed the hearings by the Federal Commission on Industrial Relations touching upon the Colorado situation. Following these in the order of their occurrence, the above named National Executive Committee can-

PUSH PHILOSOPHY

By LINCOLN PHIFER

No man ever meant anything very strongly, except he showed senti-ment.

If you don't think Socialism will do the things you wish done, what else will?

There is enough knowledge in the world, if applied only as far as known, to provide jobs, leisure and abundance for all who live.

A dead one is a man who is ruled by the customs and thoughts and debts of the dead. And judged by this standard there are very few live people in existence.

See what individualism and nationalism are doing in Europe. Surely it is time to turn to Socialism.

There is nothing higher under capitalism than life.

Capitalism puts everyone over the bodies and souls of men and women.

Whenever the government aids private business it assists a few in holding up the mass of the citizenship.

War is not wholly destructive. It seems to be creating a great many "war babies."

Every day William Howard Taft seems to be getting more of the spotlight that was once turned on Roosevelt. And William Howard is no hypocrite, though he may be funny.

Every nation is losing in the war, just as every people loses under capitalism.

Whenever an old partyman wishes Socialists to give up some of "their vagaries" so that the "good things about Socialism may be adopted," he always demands abandonment of the idea of ending exploitation, the only thing that is absolutely essential to Socialism.

Half the money that has been spent in the war would have turned the industries to the people and have enabled them forever to do away with the cause of war.

HERE'S LOOK BEHIND THE PRISON BARS

Did you ever get a look into a prison? Have you ever felt its horrors steal over you until every fibre in your being revolted and demanded that you do something to put an end to the kind of a penal system that prevails in the land today.

All of you are interested in prisons because it is the members of the working class, almost exclusively, who are sent to prison. That is why we want you to get a good look at the inside of the prison pen at Fort Smith, Ark. Where Fred W. Holt and other coal miners who sought to win a little more industrial liberty for the enslaved miners of Arkansas are confined.

In telling of the conditions surrounding him and his comrades, Holt writes to the editor of The American Socialist as follows:

"This is a hideous place. For example, our cell is located in the regular department, with the male animals on one side and the female on the other. Back of us is located the cells where they keep the insane. And there is nearly always one or more of this product of capitalism on hand."

"Between the constant ringing and cross firing of the colored population and the occasional yells and curses from the inmates, you might have in concentrating his thoughts on any subject."

Holt broke down under the strain but there was enough energy left in this prison pen to send him to a hospital where he slowly recovered. But he will not be able to regain complete health until his release which is promised for June 20.

"I have just received my American Socialist," Holt also writes. "It's a jewel. If all of our Socialist and labor papers would only take

up and push the thought expressed on the forefront of this issue, we could drive the capitalist rats in three months time."

The workers are being driven from their jobs, labor and The American Socialist is doing its part. I must congratulate you upon the splendid paper you are putting out, and am anxious to get in the field where I can help you!"

STARVING JOBLESS DRIVEN FROM CALDWELL, KAN.

For the second time in a week hundreds of men in the south-western grain belt have been driven out of town prodded by gun muzzles. The first case was at Enid, Okla., where the heaviest hands wanted jobs and no results were derived from the town. The second case has just occurred at Caldwell, Kan., where 250 starving harvest hands are reported to have become defiant after the city officials had refused them food.

Instead of giving the men some-

thing to make known their wants, the armed posse surrounded them, marched them in double file to the depot and made them board the first outgoing freight train.

It is not known whether the starving men at Caldwell, Kan., were the same men driven from Enid, Okla., but the men must exist somewhere and they will no doubt be heard from again.

It is announced in the cable dispatches from England that The Daily Citizen, the daily organ of the British trade unions, published at London, has been forced to suspend.

This is no doubt due to the war. Several months ago, The Herald, also a labor daily, was also forced to suspend. They will no doubt

both be able to resume as soon as the war is over.

THE WASHINGTON administration is long been giving special aid and comfort to Villa but in spite of all the support that can be given him Villa has lost prestige with the revolutionists in consequence of the

war and complete about-face of President Wilson in the Mexican situation?

He has repeatedly said in positive terms that the Mexican people must be allowed to work out their own salvation and that it is none of our affair how long they require to do it. In his Jackson Day speech at Indianapolis in January last he was especially decided and emphatic in this matter. And now in a twinkling he squarely repudiates himself and discards in his own person the deliverer of Mexico.

Something has happened! President Wilson has suddenly

conceived the notion that

SAVE MEXICO! (For Me)

(From The New York Call)

well-grounded conviction that and every revolutionary voice in the land should join in a nation-wide protest against the perpetration of this eternal in-

famy.

In the words of President Wilson, before he surrendered to Wall Street, the Mexican people must be allowed to work out their own salvation and it is none of our affair how long they require to do it.

BRITISH RULERS PUT PISTOL AT HEAD OF LABOR.

Philip Snowden, Socialist member of the British parliament from Blackburn, fought the ministry of munitions bill in the House of Commons, which was in effect a move for the conscription of British labor. Snowden announced that if any attempt were made to thrust forced labor on the country he would oppose it at every stage.

The dispatches state that the ambassadors and other representatives of foreign powers are in hearty agreement with President Wilson's new Mexican policy and that they will cooperate with him in "restoring peace in the unhappy nation."

Precisely!

THE VULTURES are about to descend upon their prey and pluck out its vitals in the name of neighborly regard and brotherly love!

All the powers of loot and plunder are now one in falling upon Mexico and President Wilson and the United States government are to be the howl instrumentalities in the commission of this international crime.

For to crush the Mexican revolution at this crucial hour when its promise of deliverance to the long-suffering Mexican people was never so bright and promising as now, is not only an assault upon a nation struggling for freedom, but a shameful alliance with as brazen a gang of free-booters as ever plundered a helpless people, and monstrous crime against civilization itself.

What is the duty of Socialists in this grave and threatening situation? There can be no doubt as to where they should stand and what they should do. They are in duty bound to their struggling comrades in Mexico to protest in thunder tones against intervention in Mexico.

NOW IS THE time to issue the protest and it ought to be made to ring from coast to coast and from the lakes to the Rio Grande. Every socialist

HOW ABOUT PORTO RICO?

By Max. N. Hayes.

If President Wilson is really anxious to intervene in some-thing or somewhere, he might try his hand in Porto Rico, where the wealthy plantation owners and trust barons have created a state of war.

At the hearing of the Federal Commission on Industrial Relations, in Washington, Santiago Iglesias, and other representatives told how Iglesias had been impris- oned 22 times for merely ad- vancing and helping the workers to

burn, fought the ministry of munitions bill in the House of Commons, which was in effect a move for the conscription of British labor. Snowden, held incommunicado and prevented from consulting an attorney. Scores of workers have been killed and wounded be- cause they dared to strike and

witnesses testified how of the hundreds and hundreds of poor strikers, among the un- educated, poverty stricken, laborers, who live in trees and in the swamps of the sugar fields were black- jacked, bullied, beaten, mur- dered and thrust into cells by the police; how incendiary fires were blazed on the strikers in order to discredit their cause; how these same hundreds of laborers, when arraigned before magistrates, were railroaded to jail or given heavy fines without the constitutional right of self-

counsel or of summoning wit- nesses. Here is a chance for President Wilson to clean his own doorman before meddling with neighbors' affairs.

Through his organ, The Labor Leader, the British Independent Labor Party has announced its opposition to representatives of the work-

ers joining the British coalition cab- inet.

TWO BIG TWO-PAGE EDITIONS

BECAUSE of the big demand from the farmers who read The American Socialist, it has been decided to get out a two-page special edition containing the excellent material appealing especially to farmers that has appeared in recent issues of The American Socialist.

First of all there will be the rousing article by Walter Thomas Mills on "What is the Matter with the Farmers?" Then there will be that convincing parable by David K. Young called, "A Lesson from the Chicken Coop," giving the philosophy of Socialism in language so simple that any one can understand. This issue will also include Robert Hunter's art on "The Land," one of the burdens borne by labor.

This special two-page issue will sell for the same price, the two-page issue containing the great answer to some of the attacks against Socialism, this being an unanswerable defense of the Knights of Columbus.

THE PRICE FOR EITHER ONE OF THESE PAGE ISSUES IS \$3 PER THOUSAND OR \$10 PER HUNDRED. SEND IN YOUR ORDER TO THE AMERICAN SOCIALIST, CHICAGO.

BALANCED POWERS By JOHN DE WORKE

SOCIALISM will remove all remaining集中化 to popular government, and it is the basis of the checks and balances of the powers that be, that the United States is a government of balanced powers. According to them, it is fine thing to have a government of balanced powers. The term, balanced powers, is an inviting mouthful. They snarl their lips when they say it.

What do they mean by a government of balanced powers? They mean that one-third of the authority rests with the president, through his veto power, his appointing power, etc.; that another third of the authority rests with the Congress, which can use its power to have laws passed, and that the other third of the authority rests with Congress, through its power to initiate legislation and to pass over the president's veto by a two-thirds vote.

A GOVERNMENT of balanced powers, each operating as a check upon the other two. Fine system! When one of them attempts to work a graft, let the other stop it on the ground floor, they can call a halt.

It reminds me of one of Mr. Bryan's political yarns. A pedlar went up to the fifth floor of a building, which pedlar was not allowed to have any part of his goods on the fifth floor, which goes down the stairs to the fourth floor. A man on the fourth floor pushed him down to the third floor. A man on the third floor kicked him down to the second floor. A man on the first floor went out into the street, and as he got up and pulled himself together, he gasped, "What a magnificent system they have in that building!"

A government of balanced powers is a magnificent system — with a kick to it.

SOCIALISM WILL give the encrusted old fogies who revere that system an unspeakable shock. It will pull down the president's third of the authority, pull down the supreme court's third of the authority, pull down the cap of the people!

It will deprive the president of his veto power and make all of his authority subject to referendum of the people. It will deprive the Congress of its usurped power to declare law unconstitutional, and make all decisions subject to referendum of the people. It will make all of the two of congress subject to referendum of the people. It will introduce the initiative, the referendum, the recall, and proportional representation.

In short, of course, the people are the final authority now. They are approximately the only ones that have the existence of capitalism, and the absence of socialism, give the officials an unlimited opportunity to graft. And they lovingly and joyously embrace the opportunity. In fact, they hug it so hard that it doesn't crack.

THE PEOPLE vote for the existence of capitalism and for the absence of socialism. They therefore vote to have the officials graft. They vote to have the officials trample upon their rights.

And, when they rise in their political might, as their present unceasing living indicates that they are going to do pretty soon, capitalism will fall, the reformers will be ousted, grafting will cease, trampling upon the rights of the people will cease, and socialism will begin.

"THE WAR GREAT BATTLE!"
The great "I" between the "O's" and the "O's" is developing in favor of the "O's."

A few weeks ago the "O's" had, as they thought, firmly established themselves beyond "THE 64,000," but were driven back with great slaughter towards "THE 64,000."

"THE 'O's' quickly recuperated and have advanced step by step until now "THE 64,000" is again firmly in their hands.

The immediate goal of the "O's" army is "THE 64,000" which is considered to be a strategic point.

The "O's" may then now nothing stop them from reaching their goal, especially as the Bache-Brennan syndicate is in full determined to harry the ranks of the ranks of the ranks.

Further news of the battle is our next issue.
